

To the FCC:I benefit from listening to XM Satellite Radio and its traffic and weather channels. XM satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I or any other listeners are permitted to hear. I respectfully urge you, the FCC, to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we the listeners demand and deserve.
